

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

IN RE APPLICATION OF: J. James Frost, et al. :

APPLICATION NO.: 10/811,046 : Examiner: Jones, Dameron Levest

FILING DATE: March 26, 2004 : Group Art Unit: 1618

TITLE: RADIOTRACERS FOR IN VIVO STUDY:  
OF ACETYLCHOLINESTERASE  
AND ALZHEIMER'S DISEASE

Mail Stop AMENDMENT  
Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA. 22313-1450

**REPLY WITH AMENDMENT**

Sir:

The present Reply with Amendment is filed in response to the Examiner's action herein of May 30, 2007 wherein Claims 6-11 were allowed and Claims 15-18 were rejected. Claims 6-11 and 15-18 are the only pending claims as a result of a Preliminary Amendment (submitted with the filing of the present application, on March 26, 2004).

In response to the Examiner's Action, Applicant requests that the application proceed to allowance as suggested by the Examiner. Accordingly, claims 15-18 are cancelled herewith and the subject matter thereof will be pursued by way of a continuation application. The cancellation of claims 15-18 indicates neither agreement nor disagreement with any of the rejections made by the Patent Office, rather these claims are simply being deferred for a continuation application. An appropriate Claim Listing follows immediately. The Examiner is requested to note that Claim 6 is marked "(currently amended)" rather than "(previously presented)" because a typographical error exists in the last word of the claim, i.e. "demential" should be -- dementia --. Otherwise Claim 6 is recited as previously, and all prior underlining has been removed.
